TARGET-CE

Project supported by the Interreg Central Europe Programme and funded under the European Regional Development Fund.

About us:

TARGET-CE is a consortium of 8 project partners and 9 associated partners
Priority 2: Cooperating on low carbon cities and regions.

TARGET-CE is the implementation of 7 pilot activities impacting 6 countries:
Weiz (AT), Podgórzyn (PL) and Chrastava (CZ) - Union of Romagna Communities (IT),
Split (HR), Nazarje (SI), Milanówek (PL) and Ferrara (IT) with a duration from
01.04.2020 - 31.03.2022.

In each newsletter we want to present 2 of the partners:

KSSENA - The Energy Agency of Savinjska, Šaleška and Koroška Region was established in 2006 within the framework of the Intelligent Energy Europe (IEE) programme. It offers a variety of expertise, acquired through the successful implementation of various activities in the field of energy efficiency (EE), exploitation of renewable energy sources (RES), sustainable transport and GHG emission mitigation. The agency provides a wide range of services in the field of energy management of local communities (energy analysis and modelling, education and awareness raising, energy management information systems, etc.). The agency is seasoned in the development of local energy concepts (LECs), SECAPs, energy strategies and coordination of actions for reducing energy consumption/costs/GHG emissions in public buildings and infrastructure. In addition, KSSENA also has relevant experience in cooperating with energy producers, suppliers, DH system operators, national decision makers and other relevant stakeholders. The agency's vision is to continue the cooperation on ambitious work programs, supporting various regional and interregional initiatives as well as programmes on the European level.

Partner 6

Split is the second largest city in Croatia with near 180.000 inhabitants (around 300.000 with metropolitan area), the largest city on the Croatian Adriatic coast and the centre of Urban Agglomeration Split. As an important Croatian and Mediterranean cultural, university, economic and sport centre, Split has great spatial, professional, scientific and productive potential. City of Split, as a local government organization, has 12 departments employing 440 persons with annual budget of approximately 120 million euros. Its main objective is to represent all the citizens, improving the quality of their life, promoting the economic development of the local system. Main activities: public security, services for families and disadvantaged categories, public housing service, childhood and juvenile services, tourism promotion services, local public transport, sport, cultural managing, public lighting system, protection of environmental and cultural heritage. Department for International and EU funds has 21 members, but in accordance with the subject area of the project creates expert teams from other Departments for collaboration in implementation of the projects.

TARGET-CE : Visualization 7 pilot locations

This Story Map is an online viewer to browse 7 pilot locations of the Interreg-CE project and to quickly display their information on a map. For more: Click on the link <https://arcg.is/1qyama>

TARGET-CE PILOT ACTIONS

SIPRO- Pilotaction in Ferrara

The aim of the pilot action is to support the Municipality of Ferrara to adopt smart energy tools aim at improving the energy performance of buildings also through the identification of financial tools; enlarge the dissemination and awareness raising about energy issues, start from the sample of households and citizens reached with CitiEnGov and involve more families. During the implementation of the pilot action, the CitiEngov Energy dashboard has been extended to 45 buildings located in a portion of the district “Giardino” in Ferrara.

The scope of the work is to analyze, from an energy point of view, a series of buildings (45), mostly residential, within the same neighborhood. After the analysis phase, strategies and actions could be defined in future to favor the reduction of energy consumption for the entire city area identified.

OnePlace 3D redesigned

The capitalization activities of our past 8 projects are finalised. The entire user interface of the OnePlace platform has a new layout in order to give access to past outcomes and solutions for Energy Efficiency of public buildings.

Moreover all 7 pilot actions are accessible in 3D within the 3DEMS module and user can query 3D buildings in order to retrieve, visualize and analyze the provided energy-related information. OnePlace will be the base

for the forthcoming pilot action activities and training events.

more about OnePlace 3D

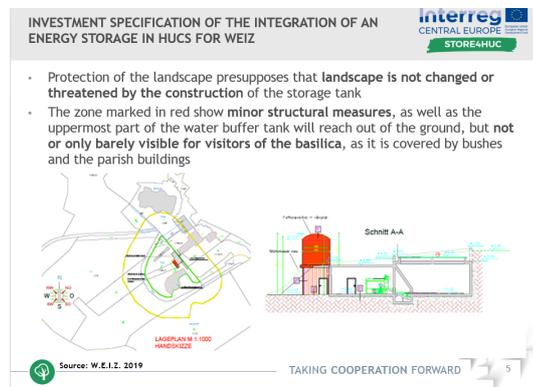

NEWS

Partner Meeting in Weiz (AT) 01/02. July 2021

The Energy and Innovation Center of Weiz hosted the partner meeting, which was held in hybrid. The partners EUWT Novum, MAE (PL), FBK (IT), KSSENA (SI) and WEIZ (AT) were personally present, the remaining partners were connected online.

All partners present their progress and the following activities on the first day. Second day was used for a midterm review by the administrative authority.

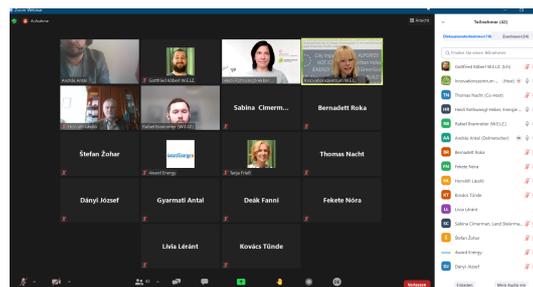

Participation at a public dissemination and communication event

TARGET-CE partners FBK, MAE, W.E.I.Z. and EUWT NOVUM participated in the 1st Webinar on energy storages within the project Store4HUC on the 23rd of June 2021.

In the framework of this event, four municipal examples were demonstrated how energy storage systems for renewable energy source heating and electricity production were successfully integrated Lendava (SLO), Weiz (AT), Cueno (IT), Bračak Manor (HR).

Best Practice Examples on PL/CZ cross-border area

Focus Group Meeting and Coffee with mayors in Weiz (AT)

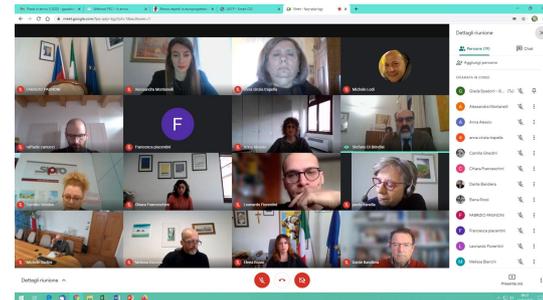

Succeeding online "Coffee with Mayors" organized by our partner Europejskie Ugrupowanie Współpracy Terytorialnej NOVUM z o.o. on 11th June 2021. The representatives of municipalities from Poland and the Czech Republic talked about best practices in the field of energy efficiency. The 3DEMS tool was presented during the meeting, and which sparked the great enthusiasm of the public authorities. Talks about Best practices in the field of energy efficiency - on the example of selected municipalities from Poland and the Czech Republic

2 events in the last week of April: A Focus Group Meeting on the 23rd: Coordination on further energy- and environment-related planning for Weiz, especially data collection for the pilot Weiz (Boostee-CE), for which a platform for common data collection and storage of non-personal data with import and export function shall be created. Coffee with Mayors on the 30th: energetic exchange with the Interreg ATHU project E&C Toolbox with 42 participants and 6 key note speakers, WEIZ presented the TARGET-CE Projekt and the Convent of Mayors

Energy sustainability, awareness campaign in the public sector

The aim is to monitor behavioral changes of Bassa Romagna employees before and after the communication and awareness campaign on energy use that is going to start in the next months. The survey's outcome shows interesting considerations on individuals, team, and institution perception on energy saving. Most of the employees declare to change approach if the need arises.

Coffee with Mayors with municipalities of the Province of Ferrara

Was focused on the Target-CE Project and in detail on the Ferrara's pilot action implementation, Overview on strategies and financial instruments for: energy efficiency of public buildings, energy Communities, sustainable mobility, Roundtable and in-depth questions also through a short online questionnaire to identify priority issues and interventions in each Municipality. The Event took place online.

Presentation of capitalization activities at eCentral project final conference

Common Online Project Meeting on the 2nd of February 2021

Leadpartner FBK presented our capitalization activities at eCentralproject final conference "Innovative Financing for Energy Efficient Public Building"

Online project meeting with all partners to discuss ongoing and future activities for the capitalization of BOOSTEE-CE, Energy@School, eCentralproject, Feedschool, CitiEnGov, GreenSoul, InterregEmpower and PANEL2050 and their deployment in 7 pilot areas

For further information about the project and the activities, your national Contact:

remondino@fbk.eu

Within the scope of the TARGET-CE project implementation, the project co-financed from the European Regional Development Fund under the INTERREG Central Europe program, it should be assumed that the project partners will be the administrators of personal data collected in a database of the project's stakeholders
