EXECUTIVE SUMMARY

Please add in the box below a short summary of max 1 pages in English language about your action plan, resuming with some lines the following main chapters of action plan, as following:

- Name of ecomuseum
- State of art (about 3/4 lines about the intangible cultural heritages elements and safeguarding actions/programm and management)
- Participatory approach (about max 3/4 lines) evidenced the main conclusions and results about participatory approach and workshops realized in CR project
- Action plan ecomusuem (about 10 lines about main goal, objectives, actions, and some lines about the pilot action selected and that will be realized with CR)

Ecomuseum of the Seasonal Lakes of Pivka

Ecomuseum oft he Seasonal Lakes of Pivka is trying to conserve local natural and cultural, tangible and intangible heritage which may otherwise disappear forever. It tries to give our heritage a local, regional, national and transnational recognition; strengthen local identity; enable social cooperation within and between groups; provide historical continuity; enhance the use of creative industry and information communication technologies and foster enjoyment.

We are well aware that intangible cultural heritage is fundamentally safeguarded by the agents of the communities that produce and maintain it. That is why our Ecomuseum is trying hard to promote and present the work our agents of the communities do. We do this with the organisation of events that are connected with our Intangible Cultural Heritage, different educational workshops and lectures that are fostering one's culture. During our workshop dedicated to public-private participative process participants have express the need to establish committee that would take care for our heritage and help with the promotional of their work. In general, they were interested in establishing a network together with Ecomuseum and others.

Main goal of our action plan is sustainable preservation and management of ICH with Ecomuseum. We would like to maximise the involvement of our local community and protect ICH. We would like to establish a committee in which locals interested in participating to the conservation of cultural heritage will be involved. We would also like is to gain new partners and make some kind of Ecomuseum Network that would put together subjects with similar objectives, stimulating shared initiatives and a common vision between them, in this way empowering them and strengthening their actions and thus foster private - public cooperation.

Our pilot action is directed towards better use of creative industry and information communication technologies to preserve, represent and communicate ICH. We will use creative design application to communicate ICH, thus making it livelier and more interesting for people.

Second pilot action is foreseen in field of participatory activities for better involvement of active locals in the recovery, interpretation, maintenance and transfer of a knowledge of traditional craftsmen to ICH. We plan to cooperate with holders of ICH to organise the transfer of a knowledge of dry-stone walling and stonemasonry.

Furthermore, we will also implement a pilot action targeting schools to teach them about importance of ICH through a didactive kit and preparatory for the launch of an international contest involving our pilot area based on the production of “amateur” viral videos on the ICH.

CHAPTER 2. STATE OF ART

2.1- Intangible cultural heritage elements and safeguarding actions/program (cfr. WP T.1 - D.T.1.1.1)

Please describe in synthesis the state of art about actions or programs aimed at preservation, recovery and promotion of intangible cultural heritage and to make a picture of various methods and approaches used by particular ecomuseums; in synthesis describe the situation and approach about preservation, recovery and promotion of ICH. (Evidence also the potential of ICH in the area of ecomuseum)

V Ekomuzeju Pivških presihajočih jezer vsako leto organiziramo številne dogodke s katerimi spodbujamo ohranjanje in predstavitev nesnovne kulturne dediščine. Najpomembnejša med njimi sta Ovčarsaki dan na Pivškem in Okusi Pivških jezer.

Ekomuzej redno organizira otroške delavnice, tako v zimskem kot v poletnem času. Delavnice obravnavajo različne tematike, vedno pa so organizirane tako, da spodbujajo otroke k spoznavanju tako naravnega kot kulturnega okolja.

V programu dela imamo tudi predstavitev lokalnih kmetij in obisk lokalnih proizvajalcev mlečnih izdelkov. Tako se obiskovalci seznanijo z našo živinorejsko dediščino. Ko organiziramo dogodke poskrbimo, da je na pogostitvi domača hrana.

Na naših socialnih omrežjih skrbimo za redno objavo dogodkov v regiji, ki spodbujajo ohranjanjem dediščine našega območja.

Ekomuzej redno organizira izobraževalna predavanja in delavnice, ki so namenjena širši javnosti. Vsebina predavanj in delavnic spodbuja ohranjanje tako naravne kot kulturne, snovne in nesnovne dediščine.

V okolju poskušamo biti čim bolj dejavno in povezani z lokalnim prebivalstvom, saj si želimo, da ekomuzej lokalno prebivalstvo prepozna kot svoje središče v katerem se prepletata naravna in kulturna dediščina Pivškega in v katerem lahko dobijo podporo in potrebne informacije za razvoj svojih idej.

2.2 - Management of ecomusuem (cfr. WP T.1 - D.T.1.1.1)

Please describe in synthesis analysis of current ecomuseum management system and assessment of its effectiveness and efficiency, with also indications about the actual state of art, approach used, points of strength and weakness.

(max 2.000 signs)

Ekomuzej Pivških presihajočih jezer je javna ustanova s katero upravlja Javni zavod za upravljanje dediščine in turizem Pivka, ki obenem upravlja tudi s Parkom vojaške zgodovine, ki je največji muzejski kompleks v Sloveniji. Zaradi kadrovske podhranjenosti zavoda, so upravljavskih naloge prešle na Občino Pivka. Trenutno se z upravljanjem Ekomuzeja Pivških presihajočih jezer ukvarjajo uslužbenke občine Pivka, ki v okviru svoje dela skrbijo tako za vsebinski kot tudi upravljavski del ekomuzeja. Takšno upravljanje muzeja se je izkazalo kot neučinkovito, saj je na takšen način težko voditi ekomuzej. Hitro lahko prihaja do stagnacije tako pri vsebinah kot pri promociji. Nujno bi bilo, da bi se z ekomuzejem redno ukvarjala vsaj ena oseba, saj se le tako lahko poskrbi za redno posodabljanje vsebin razstave, skrbi za stik z okoljem in se ekomuzej uspešno promovira na lokalnem, regionalnem in nacionalnem območju. Problem predstavlja tudi redno vzdrževanje stavbe. Med vikendi delo v ekomuzeju opravljajo študentke. V okviru ekomuzeja deluje tudi strokovni svet katerega sestavlja devet članov, na žalost se svet že nekaj časa ni sestal.

Ekomuzej še nima pridruženih partnerjev in sodelavcev, odbora uporabnikov ter znanstvenega odbora, v katerem visoko usposobljeni muzejski in znanstveni kadri ekomuzeju zagotavljajo znanstveno utemeljenost in kredibilnost muzejske vsebine ter sodelujejo v kreiranju vseh aktivnosti ekomuzeja zato vidimo na tem področju možnosti za nadgradnjo. V prihodnje si želimo še večje povezanosti in prepoznavnosti v lokalnem prostoru.

2.3 . Stakeholders and players

Please describe in synthesis the main stakeholders, players and in general bodies, entities etc that actual manage the ICH, other than stakeholders and players that could influence the models and methods of conservation, valorization and preservation of ICH .

(max 2.000 signs)

Trenutno se z upravljanjem nesnovne kulturne dediščine na območju Pivke ukvarjajo številna društva (Društvo Sopotje, Kulturno prosvetno društvo Miroslav Vilhar Zagorje, Kulturno društvo Lipa, Turistično društvo Pivka, Vaško društvo Nadnska lipa, Društvo Štirna ter Kulturno društvo hiša kulture v Pivki), Javni zavod za upravljanje dediščin ein turizma Pivka, Notranjski muzej Postojna, lastniki privatnih zbirk (Etnološka zbirka na Zgonarjevi domačiji, Šobčeva domačija, Kmetija Petrovi), ljubitelji in drugi zanesenjaki nesnovne kulturne dediščine. Zelo pomembno vlogo imajo tudi vaške skupnosti, kjer prihaja do prepleta starejših in mlajših generacij.

CHAPTER 3. PARTECIPATORY APPROACH

3.1 Evidenced the Main conclusion and results of participatory approach in terms of innovative methods of preservation and performing Intangible Cultural Heritage and planning for their application

Please describe the main goal and conclusion of workshops realized evidenced in particular:

- a- What innovative methods of preservation and recovery of intangible cultural heritage based on creative industry and information and communication technologies ? please describe in synthesis
- b- What Best Practices on ecomuseum intangible cultural heritage could be used as inspiration ? please describe in synthesis

Nesnovno kulturno dediščino Pivškega bomo predstavili na interaktivnih tablah. Tabli bosta vizualno in interaktivno oblikovani tako, da bosta v obiskovalcu izzvali spominsko oživitev, spodbujali emocije in razmišljanje. Pri oblikovanju tabel bomo uporabili sredstva kreativnih industrij. Nesnovno kulturno dediščino našega območja bomo uporabili kot vložek, vhodni podatek in jo predstavili na interaktiven, sodoben način. Vsebine bomo predstavili s pomočjo različnih nosilcev zapisa in tako, da bodo ustrezale vsem trem tipom obiskovalcev, vizualnim, auditivnim in kinestetičnim. Na tablah bodo informacije predstavljene s pomočjo starih slik, uporabili bomo zvočne zapise in krajše video posnetke ter elemente, ki se jih bo mogoče dotakniti in z njimi ustvarjati. Tabli bosta postavljeni tako, da se bo obiskovalec po prostoru moral premikati. Imeli bosta celostno grafično podobo, s pomočjo katere bomo poskušali prikazati preplet med starim in novim. Na ta način bomo pri obiskovalcu vzbudili razumevanje, da je nesnovna kulturna dediščina lahko samo živa in to tako, da se ves čas razvija in preustvarja. Pomemben del aktivnosti bosta tudi oglaševanje in promocija.

Primeri dobre predstavitev nesnovne kulturne dediščine je muzej SMO. SMO (Slovensko multimedialno okno - Finestra multimediale slovena) je muzej, ki je bil urejen v Špetru (Videm). Center prikazuje kulturno krajino od Julijskih Alp do morja, od Mangarta do Tržaškega zaliva in se uvršča med nove oblike tematskih in pokrajinskih muzejev, ki ne slonijo več na zbiranju predmetov, temveč na pripovedi. Zastavljen je kot aktiven, dinamičen, prijazen in spodbuden prostor, kjer se skozi značilne vidike krajevne kulture razvija pripoved o teh krajih. V tem prostoru se prepleta umetniško eksperimentiranje in razsežnost spomina, obiskovalcu ponuja interaktivna popotovanja in multimedialne freske krajine, ki je skupek ljudi in krajev, zgodb in spominov in ki vzbuja dražljaje in razmišljanja. Skozi pripoved prepoznavamo krajino, jo lahko poslušamo in ugotavljamo, kako je jezik povezovalec mnogih kulturnih variant, mikrokozmov, ki prekipevajo od zgodb.

3.2 Evidence the main results and conclusion of workshops in terms of existing individual offers and development of integrated offers within traditional tourism offer

Na delavnici z naslovom SKUPAJ NAPREJ, Ekomuzej v sodelovanju z lokalnim okoljem ISKANJE NAVDIHA IN NOVIH POTI, ki je potekala meseca oktobra, smo se sestali ljubitelji in hranitelji nesnovne kulturne dediščine Pivškega. Glavni namen je bilo medsebojno povezovanje udeležencev in iskanje prvih korakov v smeri aktivnejše predstavitve in promocije naše dediščine ter možnosti sodelovanja ekomuzeja z lokalnim okoljem. Na delavnico smo povabili vse pomembnejše akterje varovanja dediščine na našem prostoru. Različna društvo, lastnike zasebnih zbirk, strokovnjake, uslužbence muzejev, ljubitelje in druge zanesenjake. Na delavnici je sodelovalo 10 udeležencev, med katerimi so bili tudi lastniki zasebnih zbirk. Udeleženci so izrazili potrebo po povezovanju, skupni promociji in možnosti oblikovanja skupne turistične ponudbe.

Sklenili smo, da bomo poskusili nadgraditi obstoječo turistično ponudbo. Primer sta Šobčeva domačija in Etnografska zbirka na Zgonarjevi domačiji. Sklenili smo, da bomo sodelovali predvsem z osebami, ki s svojim delovanjem že skrbijo za ohranjanje dediščine.

Etnografsko zbirko na Zgonarjevi domačiji bomo obogatili z dvema interaktivnima tablama, ki bosta predstavljeni deščino našega območja. Na Šobčevi domačiji bomo obnovili suhi zid v njihov razstavni prostor pa bomo opremili z razstav o kamnoseški dediščini vasi Kal. Naredili bomo informacijsko pot, ki bo povezovala Pivko z vasjo Kal.

Na ta način bomo spodbudili in obogatili že obstoječo turistično ponudbo.

CHAPTER 4. SWOT ANALYSIS

3.1 SWOT

Please fulfill the following table with the indication of the main point of **Strengths, Weaknesses, Opportunities, Threats:**

Strengths	Weaknesses
<ul style="list-style-type: none"> - poznavanje razmer v geografsko obvladljivem prostoru - delovanje v prostoru, v katerem je nesnovna dediščina še vedno živa - motivirani posamezniki - nekaj znanja je že popisanega in dokumentiranega v okviru dejavnosti pooblaščenega muzeja - Notranjski muzej Postojna - pripravljenost nosilcen nesnovne kulturne dediščine za sodelovanje/ povezovanje 	<ul style="list-style-type: none"> - v okviru dosedanjih dejavnostih ekomuzeja niso bile načrtno izvajane aktivnosti za področje nesnovne kulturne dediščine - pomanjkanje prostorov za hranjenje predmetov in podatkov v fizični in digitalni obliki

CHAPTER 5. ACTION PLAN ECOMUSUEMS

5.1 General goal and strategy of action plan

The general goal of action plan is a sort of general strategy to fit the aim of action plan. It is one and general and strictly connected with the background . Evidenced also the main needs and main goal and the vision you are heading for as a desired state, so a sort of introduction evidences the reasons of action plan.

Namen akcijskega načrta je neprekinjeno skrbeti za ohranjanje kulturne dediščine Pivškega in v ohranjanje vključevati čim več deležnikov ter povezati in nadgraditi njihova prizadevanja.

5.2 Objectives of action plan

Objectives are more specific . Consider ordering your work plan by "SMART" objectives: specific, measurable, achievable, realistic and, timely (or time-bound).

Evidence also if the objects are linked with the issues of project :

- a) *Effective and sustainable management*
- b) *Innovative preservation and recovery of Intangible Cultural Heritage through creative industry, and Information and Communication Technologies*
- c) *Integration of the offer based on local identity within the traditional tourism offer for responsible tourism purposes*

Akcijski načrt se nanaša na celostno ohranjanje dediščine v treh družbenih podsistemi imenovanih družba (v ozjem pomenu), razvoj in znanje. Namen akcijskega načrta je spodbuditi in podpreti vlogo Ekomuzeja Pivških presihajočih jezer pri doseganju splošnih strateških ciljev ohranjanja dediščine, kot so vključujoča družba, uravnotežen - pametni razvoj in kontinuirano prenašanje znanj. Izziv akcijekga načrta je vzpostavitev učinkovitega modela upravljanja dediščine, ki bo temeljil na vključujoči družbi ter bo spodbujal inovativnost in uporabo sodobnih tehnologij pri njeni predstavitivosti. Steber družba in razvoj poudarjata vključevanje dediščine v razvojne politike na lokalni ravni in pri oblikovanju lokalne turistične ponudbe medtem ko se steber znanje nanaša na vključevanje dediščine v formalno in neformalno izobraževanje, ohranjanje tradicionalnih znanj ter spodbujanje digitalizacije dediščinskih vsebin.

5.3 List the actions to reach the objectives

For each objective one or more actions could be needs. Each actions could be articulated in phase or steps actions, together with the identification of resources, people /stakeholders / players involved and timing to realize the action. Please identify also if the actions proposed could be connected with some best practieses , if yes, please describe the best practieses.

Objective 1 steber DRUŽBA

5.6 PILOT ACTION

PILOT ACTION CONCEPT - Creative design application to communicate ICH

Background: Please describe the input provided by workshops, participatory approach, the origin of idea of action that constitute the basis for the development of the present action pilot as soon as good practices identified

On the workshop that we have had with our local community we have discussed a questions such as what is the “spirit of Pivka”, what is intangible cultural heritage, which elements of ICH you see as the most important, which elements do you want to preserve. On those questions we have also work with the students from Faculty of Ljubljana, department of Ethnology and Cultural Anthropology. They have interviewed inhabitants of Municipality of Pivka and asked them similar questions. Those inputs will help us with the development of the contents for creative design application to communicate ICH - two billboards on local ICH.

The idea for this action has originally started in year 2016 when the project was being developed. In Pivka we do not yet have a story about our intangible cultural heritage presented on billboards. With the beginning of the project we have started to work a lot with our local community and local anthropologist to find out more about our ICH and which elements are still alive and valued within our local community. It is important to be aware that the individuals and communities maintain a ‘‘spirit of a place’’ by constantly adhering to the values they attach to it. A monument is a mere material entity when the ‘‘spirit of a place’’ is not maintained. The perception of people towards a heritage property evolves over time and people consolidate the idea of ‘‘the spirit of a place’’ as they constantly maintain their attachment to it. The way people attach values to a heritage property tend to grow in vigor and complexity over time with respect to evolving principles and technological facets in time. A good conservation practice in cultural heritage should therefore play a crucial role in distinguishing, communicating and sustaining the established values of places and helping people to improve and express the values they attach to heritage places. That is why we have decided to make two interactive panels based on creative design to communicate local ICH through emotional, evocative, visual and interactive approach.

General brief description about the preliminary project / project

We have been working a lot to establish inventories of ICH present in our territory. We were interested in getting data about the elements of ICH that are still authentic and are still in use among our community. With this project we are focused on presenting the ICH that is still in use on our territory and with which people still relate and have attached values to it.

We have also made a research on wider territory to see how other communities have presented their ICH. How did they use creative design. We made a visit to some museum, homesteads and initiatives that work on this topic.

On the workshops that we have organised in WP T1 we have got input on where to put our billboards. Participants have agreed that it is important to put billboards somewhere where ICH elements are already important that is why we have decided to put them on Etnological collection Pri Zgonarjevih.

State of the art of the deliverable implementation (also with info about contract, public procedures on going, permits, etc.)

As said above we have decided to place our billboards on Ethnological collection Pri Zgonarjevih which is placed in Stara Sušica, small municipality in Pivka. The Municipality of Pivka has defined the agreement with the private receiver Ethnological collection Pri Zgonarjevih, stating the mission and objective of the assignment, defined who is in charge to maintain it and how it should be used and explained to the public.

We are in a process of defining the content that will be presented on billboards and how. We want to present our ICH on video, that is why we are filming our cultural events to make an ethnographic movie, on radio, that is why we are recording our carriers of ICH and in words and pictures. We are in process of gaining as much old photos and texts as possible so we could use them in the future.

We work with anthropologists and are in a processes of getting a contractor that will help us with realisation and installation of two interactive panels/billboards with scenic design to communicate ICH and creative designer to realise the billboards contents.

Deviations from the planned implementation

In our application form we have planned to put one interactive panel/billboards by Pivka Ecomuseum and one at the key point of the village. We have decided that since those panels will be made interactive and will contain electronic devices it is better to put them inside so they will not be damaged and also to protect them from vandalism. So panels will be place in village Stara Sušica on Ethnological collection Pri Zgonarjevih.

MAIN IMPACTS			
Main impacts on - ICH preservation, conservation and valorisation of ICH	For our Municipality this will be the first time that ICH will be presented on a interactive billboards. We will show locals and tourists how rich our ICH is. We think that when locals will see ICH presented in this way, they will get more respect for it. We want to communicate and sustain the established values of ICH in our community and help people to improve and express the values they attach to heritage. We think this way of presenting ICH will foster positive attitude towards conservation and valorisation of ICH among private and public sector.		
Main impacts on relation between public and private	Because we will place billboards on private property we are forced to work with them and establish a good and positive cooperation. This will also be a case study on public - private cooperation. We will gain new knowledge and experiences so in the future more public - private cooperation between Ecomuseum and partners can be expected.		
Main impacts on local communities , citizens, target groups	This will be a great contribution for our local community. It will be the first time that immature cultural heritage will be presented thus we will give it visibility and validity/effect. Citizens will be able to see the ICH of their territory and gain new knowledge same goes for different target groups. We also hope that this action plan will encourage others to preserve their ICH and ICH of our territory.		

MAIN RESULTS	
Which main results do you want realized?	Satisfaction among users and providers Effectiveness on community
What are the main indicator to measure the results ?	Questionnaire about satisfaction in paper and on-line Number of people that have visited it Integration in tourist offer Mentioning on social media and web sides
