

2ND INTERMEDIATE REPORT ON RESULTS AND EVOLUTION OF NETWORK OPERATION CENTRES

TEMPLATE FOR LOCAL NOC - PP8 ÚJSZILVÁS (HUN)

Period reported: January 2018 - December 2018

Version 02
15.01.2019

Edited by PP4 KSENA
and PP8 Újszilvás (HUN)

PP8 Újszilvás (HUN) 2nd Intermediate report on results and evolution of Network Operation Centres contributes to activity A.T3.1 (*Creating and nurturing Network Operation Centres for continuous development of Energy Guardians*), deliverable D.T3.1.2. (*Reports on results and evolution of Network Operation Centres*). It is important to report on results and evolution of NOC to assess successful implementation of activities in schools within your local NOC, skill development of our SEG network and results achieved. Through the duration of the project 3 such intermediate reports will have to be created. The template, before our summarizes period from January 2018 to December 2018.

Instructions

The template for our 2nd *Intermediate report* must be filled in by representative of our Local NOC. It is made up of two parts. First part is meant for our Local NOC to assess general operation of Joint NOC. Second part is the summary of all templates previously distributed to our schools, filled in by our SEGs and collected. **Under the comments section we first write how many of included schools answered YES and how many NO. Then make the summary of additional explanations given by SEGs of all included schools.**

*Name and function of the representative of NOC
filling in template:*

Edit TANÁCS, SEG, representative of
headmaster, local NOC

Number of schools included in your Local NOC:

2

1. Joint NOC operation and support

- Are you included in Joint Network Operation Centre?
 - > Yes
 - > No

- Did you get enough support from Joint NOC?
 - > Yes
 - > No

If no, what more would you need?

- Did you get incident response from Joint NOC in case of problems?
 - > Yes
 - > No
 - > If no, who do you contact then?

- Are you generally satisfied with the operation of Joint NOC?
 - > Yes
 - > No

If no, what would you improve?

2. Summary of templates collected from your schools

2.1. Local NOC operation and support

- Are all schools successfully included in your Local Network Operation Centre?

Comments:

Yes, both PILOT SCHOOL joined.

- Did all included schools get enough support from your NOC?

Comments:

Yes, all schools get enough support from local NOC.

- Did all included schools get enough materials, guidelines and tools to successfully implement project activities thus far?

Comments:

Yes, everything was fine. Each school received same information material, background information and guidance. It was enough and appropriate.

- Did your schools get incident response in case of need?

Comments:

Theoretically, yes, but overall there was no serious, unexpected situation that would have to be answered promptly. The NOC has offered the aid in advance.

- Are your schools satisfied with the operation of NOC?

Comments:

Yes. In the Újszilvás Project Partner (PP8), two PILOT SCHOOL joined the program and both school have NOC representatives. They could involved decision making process and have continues visibility.

2.2. Activities implemented in the period from January 2017 to December 2017

- Have all included schools successfully established team of Senior Energy Guardians?

Comments:

Yes. Both PILOT SCHOOL established team of Senior Energy Guardians. Teachers nominated this task voluntarily.

- Have all included schools successfully established team of Junior Energy?

Comments:

Yes. Both PILOT SCHOOL established team of Junior Energy Guardians. Pupils nominated and selected according to provided guidance recommendations.

- Have all included schools used “**Quali-quantitative criteria to select junior energy guardians in each school - guidelines**” for selection?

Comments:

Yes. Both schools received the necessary background material in English and Hungarian, which was used during the selection process.

- Have all included schools used “**Informative and educational material for energy culture campaign - guidelines**” for involving JEG and students?

Comments:

Yes. Both school received the necessary guidance in English and Hungarian, which was also used during the implementation process.

- Have all included schools developed an “**Energy guardians smart - school management plan**” in all included schools?

Comments:

Yes, the EGSSMP was available for both PILOT SCHOOLS. Implementation has begun in both schools (Heat insulation works and doors and windows replacement have begun.) Further improvements are expected in the provision of financial resources.

- Were smart meters installed in all included schools?

Comments:

Yes. Device installed and working properly.

- Were all SEGs included in “Vocational Energy Guardian Training Programme (VEGTP)” after the implementation of smart meters?

Comments:

The “Vocational Energy Guardian Training Programme (VEGTP)” and CEGE programme were implemented, and the presentation and education of usage of SMART METER. The SMART METER installation is done and another practical training with the user guide for all SEG member completed.
