Develop reliable passengers transport networks and intermodal connections in the EUSAIR area.

MIMOSA, ICARUS and SMACKER projects joint event.

24 November 2021, 10 – 12:30 CET

Most of the INTERREG projects on transport funded in the period 2014-2020 are going to be finalized soon. All the results will provide also useful inputs to the new INTERREG Programmes 2021-2027 and to the Macro-Region Strategies. With particular reference to the EUSAIR Strategy and to the Pillar 2, three Interreg projects, namely **MIMOSA**, **ICARUS** and **SMACKER**, are organizing a joint event aimed to share their experiences, to support the Strategy and to provide results of years of collaboration on the topic. A collaboration in particular with the regional institutions, called to join this event to present their experiences and best practices.

The main objective of this joint event is to contribute to the development of passenger transport issues within the EUSAIR area, and to provide inputs in particular to: a) **Behavioural changes for sustainable mobility** in the EUSAIR Region: practices and experiences from EU projects; b) **Intermodality promotion** in the EUSAIR region: solutions and practices from EU projects.

Agenda and registration form will follow in the next days.
