Are you interested to learn about innovative tools to enhance the quality of public transport for youth and young adults? Or to get insights on digital tools tested in European regions? Then you are invited to join the YOUMOBIL project's Summer school on September 14th & 15th, 2021. Participation is possible online and, subject to pandemic conditions, in person in Brno, Czech Republic.

Participation is free of charge.

The event is addressed to professional public transport planners and practitioners as well as students of transportation and related sciences. On the summer school's first day, innovative digital tools from Central Europe will be presented. Participants will thereafter be tasked to assess the tools' usability in a case study with results presented and discussed on the summer school's second day.
