Form of workshop ¹	online
Number and type of participants ²	10 - Representatives from PNAEAS, Adriafer S.r.l. (shunting company), Terminal operators, RFI S.p.A.,

1.2. Summary of the workshop

PP5 made a general presentation of the project and presented the main results of the final roadmap „new railway infrastructures/services 2030”, whose draft version was presented at the 2nd RCBW meeting in June 2021.

The list of actions has not changed since then, but PP5 underlined that most interventions were funded by the national government - Decree 13th August 2021, published on the Italian OJ no. 236 on Oct. 2nd 2021, detailing the so-called “complementary fund” to the Italian Recovery and Resilience Fund.

All stakeholders expressed the appreciation for the excellent timing between the activities implemented within the REIF project, and particularly the roadmap, and the funds received by the national government.

All participants agree that these interventions will pave the way for the port development of the next decades.
