RESPONSIBLE

INNOVATION:

EXPERIENCES IN INDUSTRY 4.0

Rosie mid term event

October 9

Palazzo Turati

Room Consiglio - first floor

Via Meravigli 9b

Milano

Innovhub SSI organizes a keynote speech on the topics of Responsible Innovation and Industry 4.0.

This is a mid term event of the [ROSIE Interreg project](#), organized to promote and raise awareness about Responsible Innovation and its outputs in the industry and society.

The keynote speaker is Marco Taisch, full professor at the Manufacturing Group of the School of Management of Politecnico di Milano. Currently he's working on Industry 4.0, Sustainable and Energy Efficient Manufacturing Systems, Product Life Cycle Management and Mass Customisation.

The aim of the event is to underline the strong entanglement between enabling technologies of Industry 4.0 and Responsible Innovation practices.

The event is organized under the framework of the [ROSIE Interreg project](#) and under the activities of the [Punto Impresa Digitale \(PID\)](#) of the Milan Chamber of Commerce.
