ROSIE Assessment and Implementation Tools

Giulia Bubbolini, CISE

ASSESSMENT & IMPLEMENTATION TOOLs & cycle
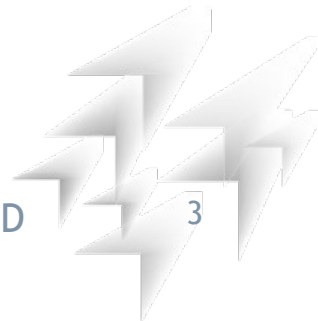

STEP 1 – 2 ROSIE Capacity Building

Supported by RI Consultants

STEP 1 (Self) Assessment of RI Relevance
(≈ CWA 17145-2)

STEP 2 (Self) Assessment of RI Dimensions
(≈ RRI Self-reflection Tools)

Radar Analysis
Relevant RRI dimensions
Vs
Implementation of RRI dimensions

All scores except 10/10

STEP 3 RI Improvment Plan =(RRI Tools Development Plan)

STEP 4

| UNI/PdR 27:2017 | STIR | Living Lab | Other Tools to address RI dimensions proposed by all PPs |

STEP 3 – 4 ROSIE Pilot Actions

Ri (self-)ASSESSMENT TOOLS

- Self-assessment of RI Relevance & Self-assessment of RI Dimensions
  - on-line version with and radar analysis as output (link)
  - off-line version with guidance on how to fill-in (download)

ASSESSMENT of RI RELEVANCE - TOOL

The Assessment of RI Relevance aims at identifygin which RI themes (ethics, gender equality, governance, open access, public engagement, science education) are more relevant to a specific organisation.

The Assessment of RI Relevance stands as a simplified assessment of materiality, reflecting the organisation's impact and its power of influence and capacity to bring change by influencing internal and external stakeholders.

The final version of the Assessment of RI Relevance is an output of the Train-The-Trainer Capacity Building session.
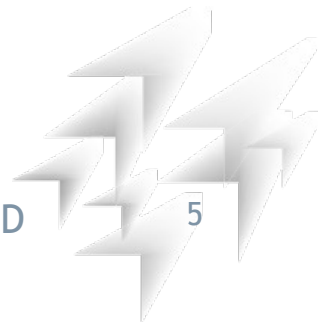

ASSESSMENT of RI dimensions - TOOL

The tool is inspired by the RRI Self-Reflection Tool:
https://www.rri-tools.eu/documents/10184/265698/SRT-BlankSheet/56970b0c-4

The RRI Self-Reflection Tool allows for further development and/or integration of items and examples for the assessment of RRI themes: ethics, gender equality, governance, open access, public engagement, science education

ROSIE works of such further development and integration, to deliver ROSIE Self-assessment Tool (output of the Train-The-Trainer Capacity Building Session)

RI IMPLEMENTATION TOOL (toolkit)

Group 1 – Standards and sets of requirements

- UNI/PdR 27:2017 (link to description from DT114 and assessment tool developed within ROSIE)
- + possible others (links to descprition to be prepared according to ROSIE Workbox Conceptual Framework D.T1.1.2)

Group 2 – Design thinking and open innovation

- STIR for SMEs (link to description from DT114 as amended upon further adaptation of the methdology to SMEs + materials from train-the-trainer Zadar session)
- + possible others (links to descprition to be prepared according to ROSIE Workbox Conceptual Framework D.T1.1.2)

Group 3 – Stakeholder Engagement

- Centralab Living Labs (link to description from DT114 + materials from train-the-trainer Zadar session)
- + possible others (links to descprition to be prepared according to ROSIE Workbox Conceptual Framework D.T1.1.2)
