SiforREF's main objective is to enhance significantly existing refugee integration policies on the regional and local level. Our goal is that social innovative and inclusive measures become mainstream. This is not only an exchange of good practices; our task is to jointly design and implement methodologies and identify the social innovative conditions that must be met. The main outputs will be tools for evaluating and designing social innovative practices and pilots that result in inclusive policies.

Who funds us

Our project is funded by the Interreg CENTRAL EUROPE Programme that encourages cooperation on shared challenges in central Europe.

With 246 million Euro of funding from the European Regional Development Fund, the programme supports institutions to work together beyond borders to improve cities and regions in Austria, Croatia, Czech Republic, Germany, Hungary, Italy, Poland, Slovakia and Slovenia.

WHO WE ARE

Partners from six cities across four Central European regions have joined forces to examine, compare and evaluate innovative measures that have the potential to improve the integration of refugees into society and the labour market.

Italy

- Venice: Ca'Foscari University of Venice
- Bologna: Public Company for Personal Services
- Parma: Municipality of Parma

Austria

- Vienna: University of Vienna
- Vienna: Caritas Vienna

Germany

- Berlin: The Berlin University of Technology
