SMACKER ETP WEBINAR TRAINING

Online | 8 September 2021

WP.T3 - Activity A.T3.5. ETP webinar training implementation

SMACKER | PP2 | Denis Grasso, Giuseppe Luppino, Irene Sabbadini

SMACKER ETP PROGRAMME IN A NUTSHELL

- The **SMACKER Enlarged Transfer Programme (ETP)** is a geographical expansion and an extended cooperation scheme among **10 followers** interested on working on Demand Responsive Transport (DRT) solutions in **peripheral areas**.
- The main goals of the ETP program is to **share knowledge and experiences** on how to develop/improve DRT solutions in peripheral/rural areas.
- The main output of the ETP programme is **the submission on an Action Plan** with measures and solutions aimed to create/improve DRT services.
- All these Action Plans (together with the ones developed by the SMACKER project partners) will be presented and discussed in a **final meeting** foreseen in Vienna in 2022.

ETP WEBINAR TRAINING IMPLEMENTATION

SMACKER ETP Webinar Training Event

Session 1. SMACKER ETP. Overview on ETP activities

10:00-10:05	Introduction to the ETP Training Event	Institute for Transport and Logistics (ITL)
