SMART_watch is a cooperation platform between key participants of the innovation sectors in Central Europe.

Within the SMART_watch, we want to develop and share good practices as well as learn from other regions that carry out similar activities in the area of Central Europe (CE). Learn more

Discussion on the expectations and needs of the market concerning regional cooperation, pro-development services in the region, presentation of best practices... These topics were discussed during the workshops that took place on 21st October in Lublin under the title "How to monitor technological and market trends in the region?".

During the meeting, the main objectives of the SMART_watch project were presented with a special focus on the activities that have already been implemented,

including the examination of the innovative potential of the region and audits in business environment institutions.

More information about the workshop you can find at project website.

The next Steering Committee Meeting and Technical Meeting for SMART_watch project Partners will will take place in Warsaw, Poland on 11-12 November 2019.

SMART_watch Partners will meet in Warsaw to discuss outputs achieved so far, work on the preparation of recommendations and boost the project implementations.

Soon we will inform you about the developed ideas!

Agneda of the meeting is available on the project website

NEWS FROM SMART_WATCH PARTNERS

LENERG Energy Agency, SMART_watch Regional Observatory, and a climate change/environmental expert from the University of Debrecen participated in an Erasmus+ workshop in Dardesheim, Germany in order to learn about local climate actions and initiatives. Dardesheim has run on renewables in 100%

We would like to invite you to the international two-day **FUTURE 4.0 conference**, which will take place on 19 and 20 November 2019 in Velenje.

The conference aims to bring together corporations and startups in Industry 4.0. The main goal of the conference is to directly connect

has a 82 MW wind park in its vicinity. People from all around the world come here to see their great achievements.

processes thanks to innovative Startup solutions and save time and money.

The MedSilesia cluster, SMART_watch Regional Observatory, is one of the organizers of the first edition of the biomedical conference - Medicine in Silico which will held in Katowice on 15.11.2019. In Silico medicine - also known as "computational/computer medicine" - includes modelling and computer simulation technologies that directly contribute to the prevention, diagnosis, forecasting, planning and support of therapeutic treatments or treatment of diseases.

The conference aims to discuss among an interdisciplinary group of entrepreneurs, scientists, physicians and engineers, the challenges posed by modern technologies in medicine.

Monday, November 11, 2019 at the Fablab Venice - Digital Fabrication & Social Innovation will be held the event "**READING: SUSTAINABLE MARKETING**", a project funded by contributions from the European Union entrusted to the Veneto Region.

The seminar aims to raise awareness on the theme of eco-sustainability in the company, through the innovative methodology of reading a different and participatory way to acquire the main concepts of a text, grasp the most interesting stimuli and identify possible applications together in their specificity of business and in daily work.

Do not forget about our project online tools - the Competence Map and the Benchmarking tool. You can test them at https://smartspecialisation.tech

All you have to do is register and you can use all available data!
