The urban green area concept

- 1 Green space includes:
- 2 Parks
- 3 Community gardens
- 4 Playgrounds
- 5 Public seating areas
- 6 Public plazas
- 7 Biking
- 8 Green LINE

This model is to transform this concrete space into a green space. This design is the key to creating an outdoor oasis. It creates a visual representation of the site using scaled dimensions. The landscape plan includes natural elements like flowers, trees and grass, as well as man-made elements such as lawn furniture, fountains and sheds. In addition, overlays for irrigation and lighting are included. The train station will remain the same so as to be conserved as an original old building, in which my colleagues will work on the interior.

With the contribution of:
Omar Kazaal, DE
