

WHY IS COOPERATION CENTRAL FOR CULTURAL HERITAGE?

Cooperation is central to sustainably use our cultural heritage. Our projects jointly improve the management of cultural heritage. They support its protection and valorisation and strengthen the cultural and creative industries.

WHAT WE ACHIEVE

PILOTS

ProteCHT2save developed local emergency plans in seven cities to protect cultural heritage from natural disasters. Ferrara in Italy is now better prepared to save their historic sites in cases of heavy rains.

interreg-central.eu/protecht2save

STRATEGIES

ECCR set up the "Route of Reformation". They connected cultural sites in eight central European countries. The Route was officially certified as a "Cultural Route of the Council of Europe" in 2019.

interreg-central.eu/ecrr

TOOLS

COME-IN! developed a new label that awards accessible museums. The guidelines created by the project offer museums a path to become more accessible to all people.

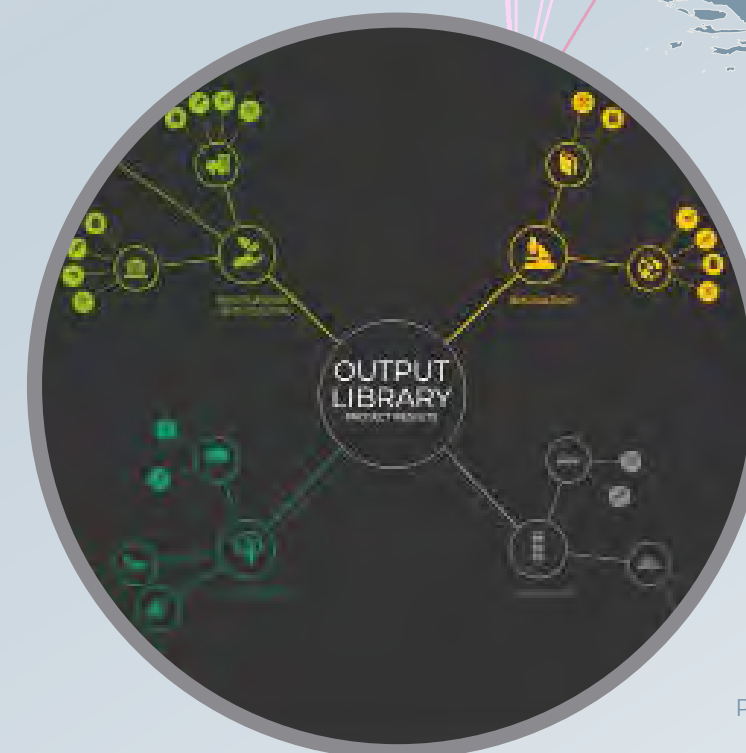

interreg-central.eu/come-in

TRAININGS

Forget Heritage developed a training model for the management of historical sites. The training is now available to managers of historical sites across Europe and will help them to run them smoothly and effectively.

interreg-central.eu/forgetheritage

WHY IS COOPERATION CENTRAL FOR SMARTER EUROPE?

Cooperation is central to make central Europe more innovative and competitive. Our projects work together to answer to key socio-economic challenges and needs related to smart growth. They support effective investments in research, innovation and education by strengthening the links between various innovation actors and by improving their capacities and competences for economic and social innovation.

WHAT WE ACHIEVE

PILOTS

CERIEcon piloted a mentoring scheme that helps start-ups to grow. Seven regional Playparks located in Bratislava, Brno, Krakow, Rijeka, Stuttgart, Venice and Vienna established new, creative innovation ecosystems.

interreg-central.eu/ceriecon

STRATEGIES

Health systems need go digital to offer better care. DigitalLIFE4CE supports policy makers in choosing the best technological solution for their region with their transnational strategy and action plan on digital healthcare innovation potentials.

interreg-central.eu/digitalife4ce

TOOLS

For a shift towards biodegradable packaging, the producers need more knowledge. BIOCOMPack-CE audit tool helps them to assess their readiness to introduce biodegradable plastics and to understand their packaging options.

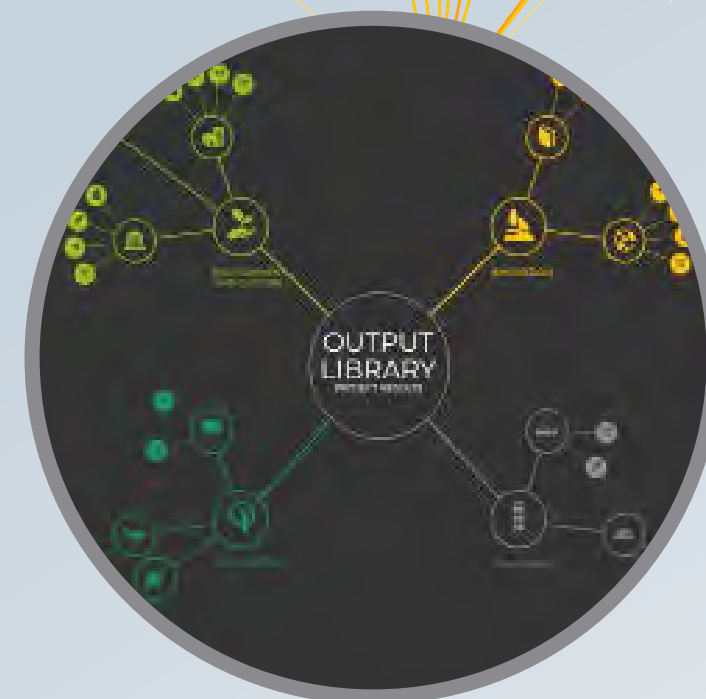

interreg-central.eu/biocompack-ce

TRAININGS

The online social innovation design academy and training course by Social(i)Makers project helps the change-makers designing effective and sustainable social innovation initiatives.

interreg-central.eu/socialimakers

WHY IS COOPERATION CENTRAL FOR A LOW CARBON EUROPE?

Cooperation is central for increasing the use of renewable energies and improving our energy efficiency. Our projects equip the central European regions and cities with tools and solutions that help them to lower their carbon footprint in energy production and consumption.

WHAT WE ACHIEVE

PILOTS

LOW-CARB introduced a new kind of public transportation that will further reduce carbon emissions. "Call a clean bus" is a feeder line connecting the hinterland of Skawina with urban area of Krakow in Poland.

interreg-central.eu/low-carb

STRATEGIES

CitiEnGov helped regions to set up energy action plans. Those will help to increase the importance of energy and climate topics among citizens and public bodies in Ludwigsburg, Germany.

interreg-central.eu/citiengov

TOOLS

The One Place Platform of BOOST-CE allows to visualise and query energy audits within 3D city models. These help decision makers to better assess, understand and plan energy uses and flows in their regions.

interreg-central.eu/boost-ce

TRAININGS

TOGETHER developed a training model for building owners and managers as well as decision makers on how to implement sustainable energy measures in their buildings and how to engage building users in the process.

interreg-central.eu/together

WHY IS COOPERATION CENTRAL FOR A GREENER EUROPE?

Cooperation is central to protect and sustainably use our natural resources. Our projects jointly improve the management of protected areas, water and waste management. They also focus on biodiversity, sustainable land use and resource efficiency.

WHAT WE ACHIEVE

PILOTS

3Lynx monitored lynx population over a 30-month pilot period in transboundary areas. This helped to define how to protect them in the long-term.

interreg-central.eu/3lynx

STRATEGIES

MaGICLandscapes designed a green infrastructure strategy for the tri-border area between Germany, Poland and Czechia to demonstrate benefits of green infrastructure investments.

interreg-central.eu/magiclandscapes

TOOLS

RAINMAN designed and tested a tool for mapping heavy rainfalls and assessing associated risks. It will help to prevent heavy rain fatalities and damages.

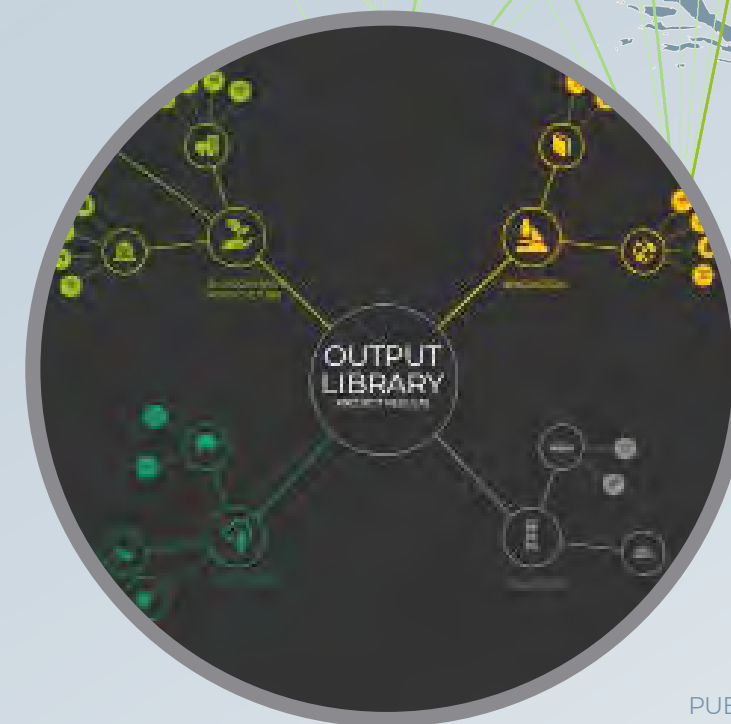

interreg-central.eu/rainman

TRAININGS

STREFOWA developed set of training materials to help consumers, retail, food service or primary production companies to avoid the food waste. Get inspired by their actions.

interreg-central.eu/strefowa

WHY IS COOPERATION CENTRAL FOR A MORE CONNECTED EUROPE?

Our funding helps to reduce the gap between less accessible regions and well-connected centres. Our transnational partnerships improve also connections of regions and cities to the European transport networks, strengthen the multimodal, environmentally-friendly passenger and freight transport.

WHAT WE ACHIEVE

PILOTS

Peripheral Access brought smart and innovative multimodal mobility systems from the urban area in Graz, Austria to the periphery in the regions.

interreg-central.eu/peripheralaccess

STRATEGIES

RUMOBIL has developed strategy for enhanced public transport in rural areas and better access to TEN-T networks.

interreg-central.eu/rumobil

TOOLS

ChemMultimodal has developed toolbox facilitating the shift to multimodal transport of chemical goods.

interreg-central.eu/chemmultimodal

TRAININGS

CONNECT2CE project trained key stakeholders involved in public transport planning on improved cross-border mobility.

interreg-central.eu/connect2ce
