

# WEB-APP FOR PEDIATRICIANS

STEP BY STEP GUIDE  
TO DIAGNOSE  
CELIAC DISEASE

**Do you know how to  
diagnose celiac disease?  
Take advantage of our  
new Web-App!**

The free web-app is your reliable guide through all the phases of the diagnostic process, helping you to identify the patients with suspicion of celiac disease more effectively, and to confirm or exclude the diagnosis with more certainty!

**[www.celiacfacts.eu](http://www.celiacfacts.eu)**

The Web-App guides you through the most up to date, evidence-based guidelines\* of the European Society for Paediatric (Pediatric) Gastroenterology, Hepatology and Nutrition (ESPGHAN) to diagnose celiac disease.

**[www.celiacfacts.eu](http://www.celiacfacts.eu)**

You'll get supplementary background information for each diagnostic step and learn about potential pitfalls of the diagnostic measures! Take advantage of this innovative tool – free and without registration!

More pediatric guidelines to follow on this platform.
